FARS Distinguished PhD Mentoring Award Nomination Form

Please limit to a maximum of 2500 words

The criteria for the award are:

- A long track record of producing successful doctoral students that have been research-productive over their careers.
- A willingness to co-author with their doctoral students and/or provide continuing feedback on their students' work.
- Specific examples of advancing their students' long-term professional development; e.g., helping them secure conference or presentation invitations
- Distinguished teaching and mentoring during their students doctoral programs; e.g., high-quality doctoral seminars

A candidate need not meet each criteria to be considered for the award. The award will not simply be based on numbers of students, but rather weight will also be given to specific examples of situations in which the candidates went above-and-beyond to mentor their students.

We encourage multiple nominators to use one form to state the case for the nominee.

Name of Nominee:

Nominee's title and professional affiliation:

Notable former PhD students mentored by the nominee (include titles and professional affiliation):

Describe specific activities or initiatives that illustrate how the nominee meets the criteria listed above:

List of references:

If references will be providing letters of recommendations, please limit to three letters. Note that references can also include their testimonials above in lieu of sending separate letters.

Nominator(s) name(s) and professional affiliation(s):
